Other Notes

REPORTS: Site Reports are required for every survey purchase. If you are using these to measure change over time with two administrations (ie. pre/post) you will need to order two reports per site. Each site report includes up to 100 youth surveys, if unused, these surveys may not be transferred to a separate report. Custom analyses will be quoted on an organizational basis. Other data may be suppressed if there are less than 10 youth represented in a specific cell within the report. Reports will be created within two weeks of notification from the client that their survey administration period is closed. An additional fee will be charged for any reports requested post administration.

ETHICS: Collecting survey data from young people requires following ethical, legal, and professional standards in order to protect young people and to generate quality results that can be used with confidence. Search Institute survey users must adhere to the professional standards for survey research found here: <http://www.search-institute.org/survey-services/professional-expectations>. By submitting this order form, you agree that you have read the above notations as well as those on the webpage and meet the standards therein.

CANCELLATION: If you decide to cancel your survey order there will be a \$100 cancellation fee and must be initiated within 30 days of the order date.

PAPER: If necessary, paper surveys may be emailed to the client to print for DAP or YAPS administrations. These responses will need to be entered into the links by the client.
